    b. **Example**: 600 (without unit).
    c. **Rules**: Must be a number

11. **Modal Padding Y (Number)**
    a. **Description**: It will change the horizontal padding of modal.
    b. **Example**:10 (without unit).
    c. **Rules**: Must be a number

12. **Modal Padding X (Number)**
    a. **Description**: It will set a vertical padding of modal.
    b. **Example**: 20 (without unit).
    c. **Rules**: Must be a number

13. **Modal Radius (Number)**
    a. **Description**: It will set radius of modal
    b. **Example**: 8 (Without unit).
    c. **Rules**: Must be a number

14. **Header Height (Number)**
    a. **Description**: It will set modal header height.
    b. **Example**: 40 (Without unit).
    c. **Rules**: Must be a number

15. **Header Border (Number)**
    a. **Description**: It will set the width of the header bottom border.
    b. **Example**: 1 (Without unit).
    c. **Rules**: Must be a number

16. **Header Border Color (Color)**
    a. **Description**: It will change the header border color. You need to set at least 1 border width to see the color.
    b. **Example**:#B70B0B.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

17. **Title font size (Number)**
    a. **Description**: It will change the size of the modal header title.
    b. **Example**: 12 (Without unit).
    c. **Rules**: Must be a number

18. **Title Font Color (Color)**
    a. **Description**: It will change the title font color.
    b. **Example**: #000000.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

19. **Header Close Icon (Icon)**
    a. **Description**: It will set an icon for header close, you can choose from the icon list.
    b. **Example**: cross icon (wwi wwi-cross)
    c. **Rules**: Must be an icon

    a. **Description**: It will set modal footer height.
    b. **Example**: 40 (Without unit).
    c. **Rules**: Must be a number

22. **Footer Border (Number)**
    a. **Description**: It will set the width of the footer bottom border.
    b. **Example**: 1 (Without unit).
    c. **Rules**: Must be a number

23. **Footer Border Color (Color)**
    a. **Description**: It will change the footer border color. You need to set at least 1 border width to see the color.
    b. **Example**:#B70B0B.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

24. **Secondary button text (Text)**
    a. **Description**: It will set the text for secondary button (such as cancel button)
    b. **Example**: Cancel.
    c. **Rules**: Any content (text, number, character) you can put.

25. **Close button padding Y (Number)**
    a. **Description**: It will change the vertical padding of the close button.
    b. **Example**: 10 (without unit).
    c. **Rules**: Must be a number

26. **Close button padding X (Number)**
    a. **Description**: It will change the horizontal padding of the close button.
    b. **Example**: 20 (without unit)
    c. **Rules**: Must be a number

27. **Close button color (Color)**
    a. **Description**: It will set the background color of the close button.
    b. **Example**:#d80000.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

28. **Close button text color (Color)**
    a. **Description**: It will set the font color of the close button.
    b. **Example**: #ffffff.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

29. **Close button border (Number)**
    a. **Description**: It will set the border of the close button.
    b. **Example**: 1 (Without unit).
    c. **Rules**: Must be a number

30. **Close button border color (Color)**
    a. **Description**: It will set the border color of the close button.
    b. **Example**: #510000.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

31. **Close button border radius (Number)**
    a. **Description**: It will set the border radius of the close button.
    b. **Example**: 8 (Without unit).
    c. **Rules**: Must be a number

32. **Primary button text (Text)**
    a. **Description**: It will set the text for primary button (such as submit button)
    b. **Example**: Submit.
    c. **Rules**: Any content (text, number, character) you can put.

33. **Submit button padding Y (Number)**
    a. **Description**: It will change the vertical padding of the submit button.
    b. **Example**: 10 (without unit).
    c. **Rules**: Must be a number

34. **Submit button padding X (Number)**
    a. **Description**: It will change the horizontal padding of the submit button.
    b. **Example**: 20 (without unit)
    c. **Rules**: Must be a number

35. **Submit button color (Color)**
    a. **Description**: It will set the background color of the submit button.
    b. **Example**: #085d44.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

36. **Submit button text color (Color)**
    a. **Description**: It will set the font color of the submit button.
    b. **Example**: #ffffff.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

37. **Submit button border (Number)**
    a. **Description**: It will set the border of the submit button.
    b. **Example**: 1 (Without unit).
    c. **Rules**: Must be a number

38. **Submit button border color (Color)**
    a. **Description**: It will set the border color of the submit button.
    b. **Example**: #510000.
    c. **Rules**: Must be a color (Hex, RGB, HSL)

39. **Submit button border radius (Number)**
    a. **Description**: It will set the border radius of the submit button.
    b. **Example**: 8 (Without unit).
    c. **Rules**: Must be a number

Use Case

You can use this modal to add dialogs to a website for a variety of purposes, including: lightboxes, user notifications, and custom content
